“ European Health Catapult is a means to stay in tune with emerging trends in healthcare and spot potential investment opportunities ahead of time. It’s a shortcut to connect with the EIT Health ecosystem – a powerful European network for healthcare innovation.

Michael Tadros
Senior Manager
Botin Foundation

“ This programme gives investors an insight on promising European healthcare startups that have gone through a rigorous selection and training. These events are a great opportunity to be introduced to the EIT Health Investor Network and its pan-European dealflow.

Caroline Sai
EIT Health Investor
Network Leader

About European Health Catapult

The European Health Catapult is a yearly training program for Medtech, Biotech and Digital Health high potential and mature startups. Through dedicated sessions, a group of international top-level investors, key healthcare leaders and industry stakeholders work closely together challenging 40+ ambitious startups to optimize their business plan and strengthen their pitch deck.
